

As a business partner with you in Senior Living, we at **K2M Design** are thinking about you, your Residents, and your staff. We recognize you truly are on the front line and appreciate your devotion to our Seniors.

To come alongside you and add to your tool chest of activities, every Monday during our temporary confinement I will be sending out a Travel Newsletter, highlighting a few places and the people who helped shape our great states. My hope is that you will pass this Newsletter along to each of your Residents, letting them know others are thinking about them. It is a simple gesture, but hopefully one that will be a bright spot.

Stay healthy and encouraged.  
Your Senior Living Partner,  
Becky
