Subject: Complete the HMDCB Practice Analysis

LeadingAge Ohio is assisting the [Hospice Medical Director Certification Board](#) (HMDCB) who invites you to participate in a very important project: a Practice Analysis Study. The study is being conducted to update the unique set of performance domains, tasks, and associated skills of hospice physicians. HMDCB will use the survey's results to update their Content Blueprint, which ultimately drives the content on their certification and recertification exams.

The information you provide in the survey will be collected by HMDCB's testing partner, PSI, and is only used for the purposes of this practice analysis; all responses will be kept confidential and anonymous. The survey will likely require 25-30 minutes to complete and your input is critical.

To help ensure that responses are received from a representative sample of hospice physicians and medical directors, it is important for everyone who is invited to respond. **If you are not a hospice physician or medical director**, we ask that you please forward the survey to all hospice physician(s) and medical director(s) within your organization.
