

DEMENTIA Live®

CMP FUNDED PROJECT FOR OHIO NURSING HOMES

Empower your care team with new tools for improved communication skills and care practices that can be implemented as they care for residents in your community,

While so much feels out of control currently, we do have control over how we interact and care for the people in our care.

We are pleased to share that we are well underway with Year 2 of the Dementia Live® project, awarded by CMS regional office under the Civil Monetary Penalty funding.

Dementia Live® (DL) is an evidence-informed experiential learning program simulating cognitive and sensory impairments, giving participants real-life experience of living with dementia. The Dementia Live® program can be done with flexible, quality, online Coach training and the support of our project team. If restrictions are lifted for onsite training, this will be available as a refresher training. We make this as easy and seamless as possible for you to obtain this impactful training now when most needed.

This project is limited to 50 nursing homes, so secure your spot today!
