Needlepoint Art – “Fresh Happiness”

My son came to visit me from New Jersey and I thought it was the perfect opportunity to give him this piece of needlepoint for helping me.

I enjoy working on needlepoint projects because it helps me focus, relax and gives me a sense of enjoyment working through the canvas to see what I can create. It is a great way for me to spend my leisure time and share my creations with my family. When I complete a piece it gives me a sense of accomplishment and pride in myself and I find that very rewarding.
